DETAILED ACTION

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance:
2. Claims 1 – 40 are allowed over the prior art of record.
3. The prior art of record does not teach or fairly suggest in combination of steps as recites in claims 1 and 21 wherein the combination of steps including "identifying homes and relationships . . . providing a datastore that is associated to the database . . . providing a single home class . . . providing a single relationship class . . ." combined with "generating a query to transfer data between the application and the database . . . processing a first home . . . instantiating the home class to an instance of the first home by setting attributes of the first home." Further combined with Applicant's use of phrase "identifying homes" as described in Applicant's disclosure.

The dependent claims, being definite, further limiting, and fully enabled by specification are also allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
